

Profile

Highly motivated and hardworking recent graduate seeking to kickstart a dynamic career in the field of technology. With a strong passion for innovation and a solid educational background, I am eager to contribute my skills and enthusiasm to a progressive company where I can grow both professionally and personally.

Education

Bournemouth University | Computer Science BSc | 2:1 | 2020 – 2023

- For the artefact of the dissertation, I developed a fitness application in React Native and Firebase allowing a user to add interactive posts, send messages, add workouts and other data synchronization features, showcasing my proficiency in mobile app development and backend integration.
- Developed projects in teams using methodologies such as Waterfall, Scrum, UCD, Agile and MoSCow
- Explored modules focused on neural networks and machine learning, utilizing Python
- Developed a Dots and Boxes game in Kotlin and Java using GitHub to commit the projects

Brighton, Hove & Sussex Sixth Form College (BHASVIC) | 3 A-levels | 2018 – 2020

- Developed algorithms and GUIs in C, Python and Swift
- Studied Mathematics, Physics and Computers Science A-levels

Hove Park School | 11 GCSEs | 2013 – 2018

- Studied basic computing architecture, computational thinking and algorithmic principles
- Developed websites using HTML, CSS and JavaScript
